Contact: [careers@kongiwe.com](mailto:careers@kongiwe.com)

### About Kongiwe:

Founded in 2016, Kongiwe's purpose is to solve environmental and social challenges by providing expert bespoke solutions that promote current and future sustainability globally.

Head-quartered in Johannesburg, South Africa, with offices in the mining and finance hubs of the United Kingdom and Canada, our team of professional Environmental and Social Scientists are highly trained in various environmental disciplines and have significant, direct experience in an array of projects across various industries, especially in the mineral resources and renewable energy sectors.

With a unique client-centric focus and rigorous quality control processes we are proud that most of our clients are repeat clients. This has led to long term relationships where we are considered trusted partners in our clients' sustainability journey. Kongiwe has executed numerous large scale, scientifically complex and socially sensitive ESIA and advisory projects. The scale and complexity of these projects has embedded high quality project management skills as well as integrated thinking in our processes.

### Job Description:

Kongiwe is looking for an Environmental Assessment Practitioner (EAP), the ideal candidate would have 0 to 5 years' experience in large scale Environmental Social Impact Assessment (ESIA) projects within the mineral resources and renewable energy sectors.

#### Responsibilities will include:

- Conducting ESIA projects within South Africa as well as internationally,
- Independently and proactively define and articulate environmental impacts,
- Tender and proposal compilation,
- Marketing and sourcing project leads.

#### Qualifications, experience and credentials:

- Suitably relevant tertiary post-graduate qualification,
- 1-5 years' experience working on ESIA projects both to South African regulatory requirements as well as internationally to the International Finance Corporation (IFC) requirements,
- International work experience would be an advantage,
- Professional Registration (Candidate EAPASA, Cand.sci.nat in process) would be an advantage,
- Valid driver's licence,
- Valid passport and willingness to travel,
- Experience in delivering project workstreams on time and within budget,
- Commercial and entrepreneurial acuity,
- Strong written and verbal communication skills, excellent and efficient report writing.

#### Salary:

A competitive remuneration package will be negotiated with the successful applicant.

Whilst we aim to acknowledge receipt of applications, any application not responded to by 31 January 2024 should be considered unsuccessful.
